A cool level, you play as the bad guys instead :D. I like it. A level with the bad guys? Who wouldn't want to try that lol. Very very glitchy. After 4 tries some objects just don't appear. Cool characters though.. You get to play as Kylo Ren and that one storm trooper with a stick who everyone liked in the movie; too bad this DLC is one level that lasts less than five minutes and contains nothing new or noteworthy. This level is literally just a showcase for characters and abilities that are already in the base game.

There's no trace of the \u2018thrilling assault\u2019 or \u2018storming the shores\u2019 that the store page mentions; it\u2019s just the same as every other level but you\u2019re a baddie. A bigger waste of time than trying to train your \u2665\u2665\u2665\u2665\u2665\u2665\u2665 nephew to become a Jedi in a world where their values are no longer especially relevant.. Another great addition to the game, and probably the best level on Takodana. The characters are a bit meh, but I'd still recommend it.. The part where im supposed to save stormtroopers freezes because the stormtroopers on the right side with a big alien wont jump down

In this adventure, you play as the bad guys during an assault on Maz's Castle. The base game's air battle segments are some of my favorite, and this adventure sports plenty of those, making it a good one in my book. This was included with the season pass.
